

EPREP: Engraved Plate REPlacements

Puts engraved plates to rest

BRADY offers a solution that will put an end to the hassle of buying engraved plates once and for all. EPREP (Engraved Plate REPlacement) labels are innovative labels specifically designed to replace engraved and plotted plates for the identification of electrical components, electrical cabinets, push buttons, patch panels, etc.

Print what you want instantly

EPREP labels save time and money by allowing you to print nameplates exactly when you want them instead of having to order pre-printed nameplates and stocking these.

EPREP, What's in it for you?

Flexible

- Print the labels you need, when and where you need them. Reprints and corrections are easily made on the go!

Fast

- Labelling software enables you to quickly turn out serialised groups of labels using pre-defined templates.

Cost-Effective

- Lower priced than engraved plates.
- No stock of pre-printed labels needed.
- Save time & money by printing yourself.

Professional look

- Resembles engraved plates.
- Glossy topcoat looks smart and professional.

Product details

- Specially developed Brady material: B-7593.
- Thermal transfer printable with resin-based ribbons.
- Good resistance against scratching, smearing and rubbing.
- Temperature range from -40°C to +100°C.
- Material thickness: 650µm.
- High tack adhesive, suitable for uneven (rough) surfaces.
- Excellent UV and weathering resistance.
- Good chemical resistance against alcohols and diesel oils.
- Available in standard and custom sizes.

Applications

Identification of...

- Low Voltage Control Panels
- Electrical Cabinets
- Switches
- Push Buttons
- Signal Lights
- Visualisation of Instructions (Start / Stop)
- Instrumentation
- Motor Control Panels
- Manufacturing / Production Line
- Racks and Patch Panels

For optimum labelling results we recommend that you print EPREP labels with the following printer ranges.

BP-PR Plus*

This rugged industrial printer is the perfect printing solution to meet the professional needs for anyone who wants to replace the time consuming option of engraved plates by a more flexible thermal printable solution. This printer offers you the following benefits:

- Easy to use
- Easy to calibrate
- Excellent heat management system for perfect print quality
- Resolution ranges from 203 to 600 dpi
- Stores last label format in memory

* EPREP can also be printed with any Brady thermal transfer bench-top system which support a label thickness of 650 µm

TLS Thermal Labelling Systems

The TLS Thermal Labelling Systems ensure permanent, quick and clear printing, label after label. The systems automatically recognise label size and printer settings! Simply load the label roll and ribbon cartridge and you are ready to print a perfect label.

Connect the TLS Thermal Labelling System to your PC and use the Labelmark™ software to import data, create templates and use bar codes.

Use the matrix below to select the most suitable printer for your application

Selection Criteria	BP-PR Plus	TLS2200® / PC Link™	
Max. number of labels per day	7000	500	
Min. label height	10.00 mm	8.00 mm	
Min. label width	8.00 mm	10.00 mm	
Max. label height	1000.00 mm	PTL (roll): 20.00 mm PTL (FF): 100.00 mm	BPTL 65.00 mm
Max. label width	108.00 mm	48.00 mm	
DPI	203, 300 and 600, depending on configuration	200	

EPREP labels for the BP-PR Plus come in 2 different formats:

- R** Labels on a roll, for labels upto a height of 65 mm
- F** Labels on a fan-folded liner, maximum height is 400 mm

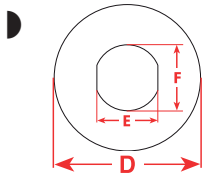

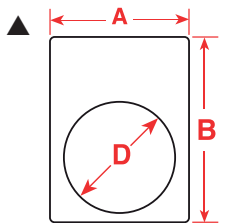

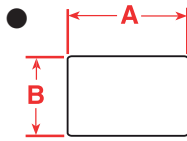

Format

EPREP labels available to print with BP-PR Plus and other thermal transfer bench-top printers
